

The 7th International Conference on Biochemistry and Molecular Biology

“Challenges in Biochemistry to Overcome Pandemics and Disruption”

REPORT

Professor Dr. Tavan Janvilisri

Chair of Scientific Program Committee

On behalf of the Organizing Committee, it is my great pleasure to welcome you to the 7th International Conference on Biochemistry and Molecular Biology. The conference is organized by the Biochemistry and Molecular Biology section of the Science Society of Thailand under the Patronage of His Majesty the King. This conference is also supported by various universities, institutions and business enterprises.

The theme of the conference “Challenges in Biochemistry to Overcome Pandemics and Disruptions” with the aim of providing an exchange platform to promote creative discussion, for participants to exchange their experience, and to strengthen the interaction and collaboration among participating biochemists and molecular biologists. The conference has successfully brought together nearly 300 participants including professors, researchers, and students. We have a total of 5 scientific sessions, 3 plenary speakers, 9 keynote and invited speakers, 1 BMB awardee and 24 oral presentations from local and abroad. There will be over 91 papers presented covering a wide range of advances in the field of Biochemistry and Molecular Biology.

Due to the COVID-19 pandemic, the conference is held via an online platform. Nonetheless, the quality of work to be presented here is not less than when it was in a conventional form. As the Chair of the Scientific Program, I would like to take this opportunity to express our sincere appreciation to the Biochemistry and Molecular Biology section of the Science Society of Thailand, the Universities involved, and all Sponsors for their support. Last but not least, I would like to thank all participants for their contribution.
